Learning Management System for Microsoft® SharePoint® Server

FEATURES

SharePointLMS is designed for use from a single Campus installation all the way through to a Education Authority wide deployment yet maintaining individual branding at all levels. SharePointLMS incorporates all the best features available to e-Learning today with a pedagogic user interface supported by the scalability of the Microsoft® Office SharePoint® Server.

- Multi Organization Levels including individual branding of all Levels
- Multiple Learning Paths
- Course Announcements
- Grade Book incl. Multiple Scales
- Quizzes incl. Branching, Surveys and partial scoring for questions
- LMS wide Question Pool
- Assignments and Grading
- DropBox for Document Exchange
- Virtual Classroom
- e-Portfolio Integration
- SCORM® 1.2 and 2004 Compliant
- Customisable Certificates
- Shared Document Library
- Competency Measurement
- Local Multimedia File Reader
- Tutor, Student and Special User Roles
- Automatic & Manual awarding of Certificates
- Upload or Import Third Party content
- Course Copy, Export & Import
- Streaming Multimedia
- Student Progress
- Podcasting Integrations

COLLABORATION

SharePointLMS provides a number of methods to enhance collaboration between the Tutor and Students as well as collaboration between Students themselves. Each course is able to create sub groups, each able to have their own suite of Collaboration Tools.

- Real Time Chat Room
- Microsoft Communicator
- Discussion Forums
- Live Meeting Virtual Class Room
- Session Recording for later playback
- E-mail Communication

ANALYSIS AND REPORTING

SharePointLMS provides scheduled reports for the Tutor incorporating different views on the student, from single course reports to LMS wide reports. All scheduled reports can be emailed to selected users. SharePointLMS furthermore provide statistical course analysis through a range of easy viewable graphs.

- Recording of Grades
- Recording of Attendance
- Recording of User Activity
- Analysis of Student Exams / Quizzes
- Export of Grade Book for MI Analysis
- Analysis of User activity

ADD ON'S & INTEGRATIONS

SharePointLMS has the additional strength where without the need for additional systems you can add SharePoint® e-Portfolio, integrate with Live@EDU, configure your Students 'My Site' page with 'My Site' Builder, link you Courses to the Microsoft® Podcasting Server and fully integrate with Microsoft® Office® Communication Server for Live Meeting and Communicator.

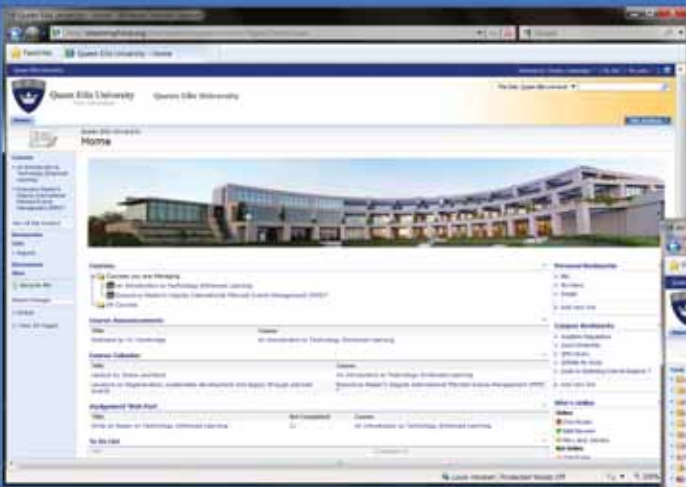

- SharePoint® e-Portfolio
- Live@edu
- Microsoft® Podcasting Kit for SharePoint (PKS)
- My Site Builder
- Microsoft® Office Communication Server 2007

SYSTEM REQUIREMENTS

SharePointLMS can be deployed as a stand alone system running on a single Microsoft® Server running WSS 3.0, to a fully integrated solution such as Microsoft Learning Gateway running on Microsoft® Office SharePoint® Server 2007.

- Microsoft® Server® 2003 / 2003 R2
- Microsoft® Office SharePoint® Server 2007 or
- Microsoft® Windows® SharePoint Services 3.0
- Microsoft® SQL Server™ 2005 / 2005 Express
- Microsoft® .NET Framework 3.5
- For added functionality:
 - Microsoft® Office Communication Server 2007
 - Microsoft® Podcasting Kit for SharePoint (PKS)

The SharePointLMS Course Page which can be build to user requirements, webparts can be added and/or moved around.

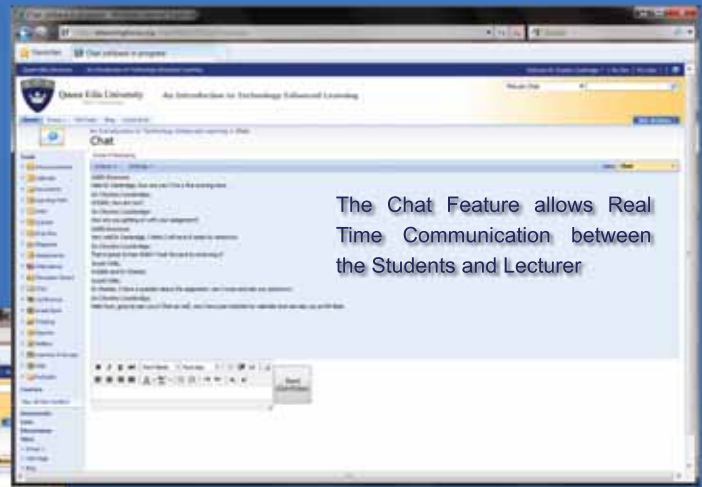

The SharePointLMS Home Page showing a personalized view of Announcements, Calendar Events, Drop Box, Assignments etc.

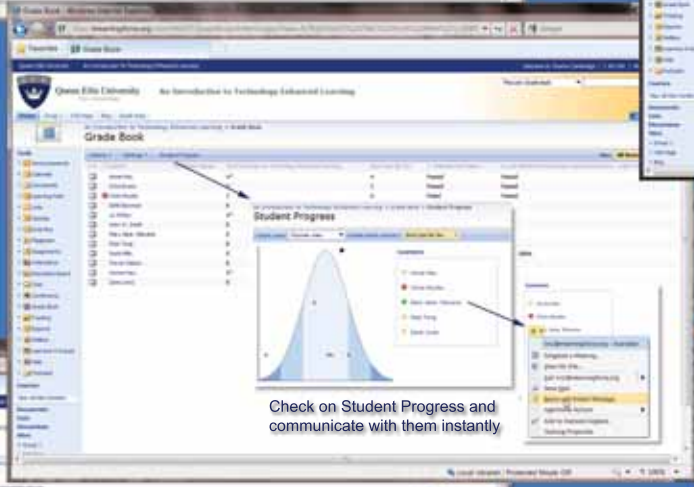

The Learning Path feature will provide an organized and structured view of course content.

AN EMBEDDED VIDEO FROM YOUTUBE IN THE LEARNING PATH
